Github: <https://github.com/rnadarsh25/tourGuide-Web-Design-Project/tree/master/tourguide>

Aim of the Project:

- The Aim of this project is to make a website to provide an easy and cheap platform for people who want to travel and to explore more deep in this world.
- The Outcome of this project is that a person can easily check the whole descriptions and details of any particular place.

Technology used:

HTML:

Hyper Text Markup Language (HTML) is the main markup language for creating web pages and other information that can be displayed in a web browser. HTML is written in the form of HTML elements consisting of tags enclosed in angle brackets (like <html>), within the web page content.

CSS:

Cascading Style Sheets (CSS) is a style sheet language used for describing the presentation semantics (the look and formatting) of a document written in a markup language.

JavaScript:

JavaScript® (often shortened to JS) is a lightweight, interpreted, object-oriented language with first-class functions, and is best known as the scripting language for Web pages, but it's used in many non-browsers as well.

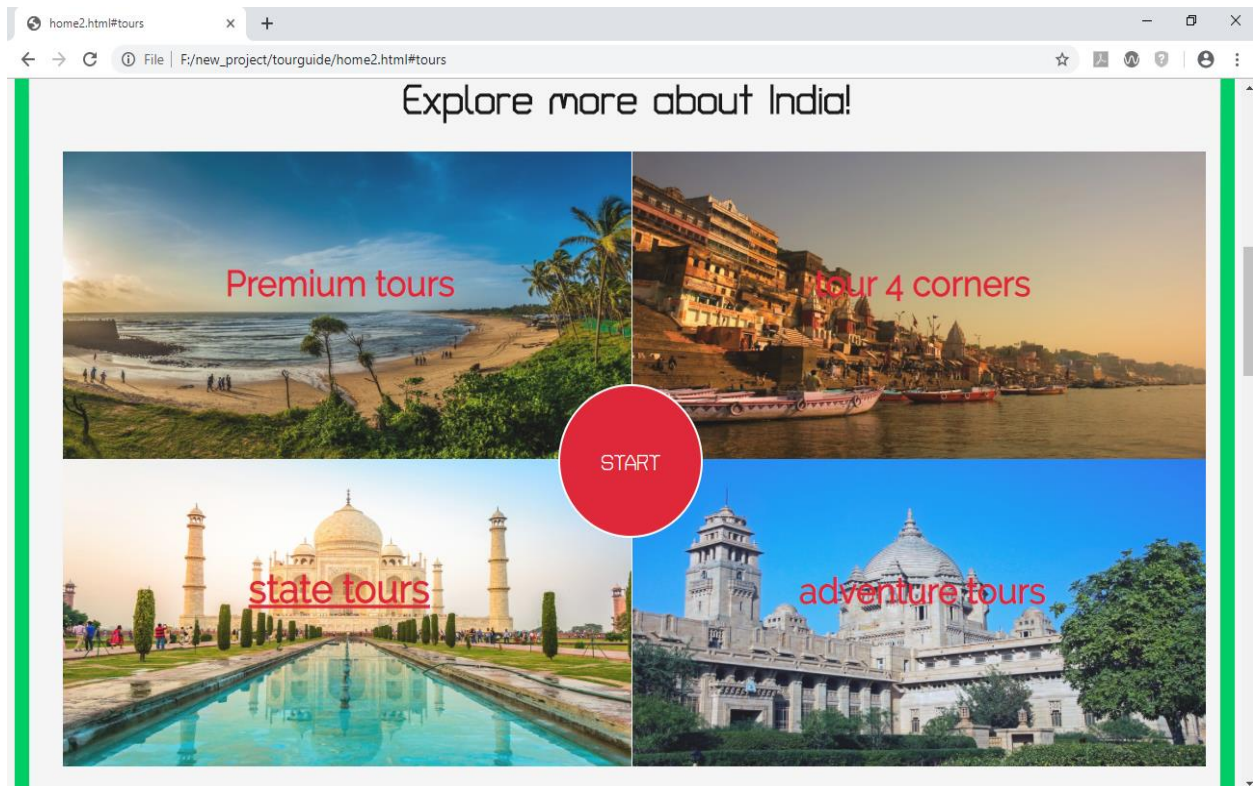

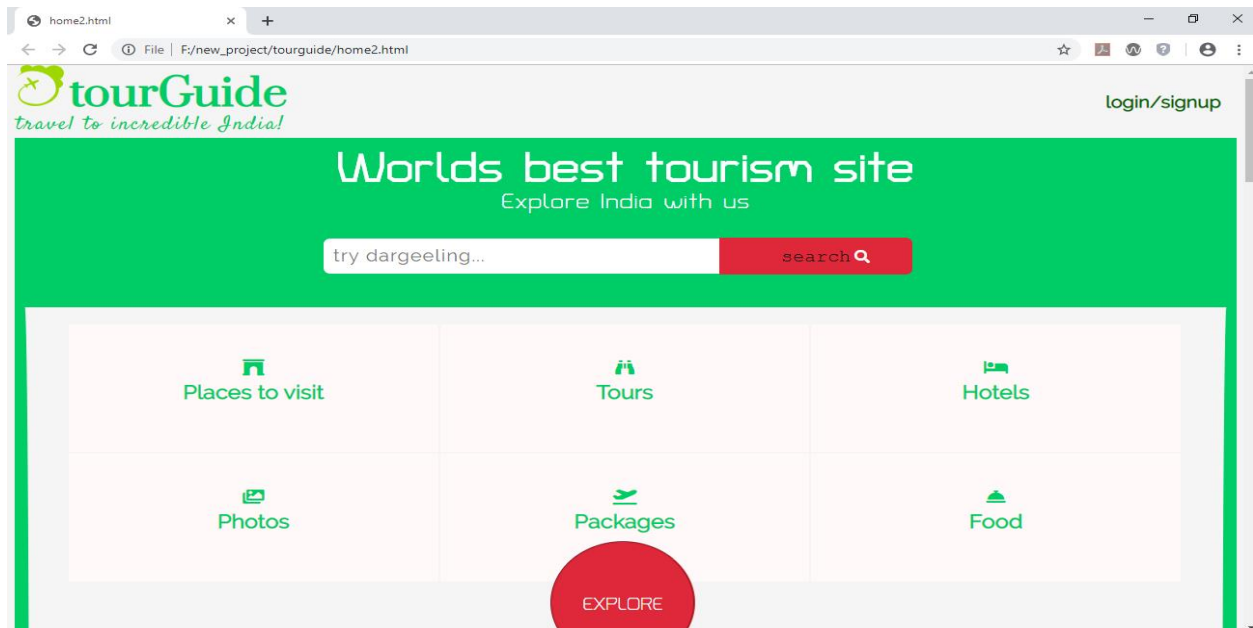

jQuery:

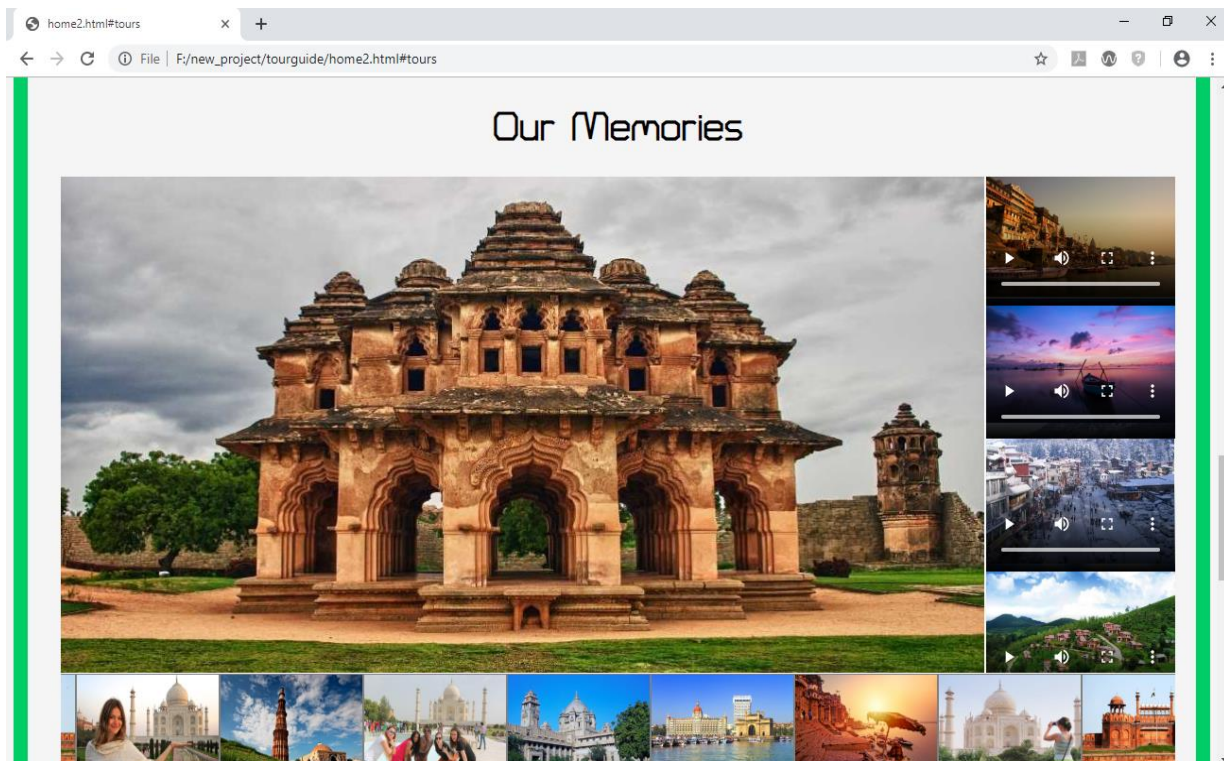

jQuery is a lightweight, "write less, do more", JavaScript library.

The purpose of jQuery is to make it much easier to use JavaScript on your website.

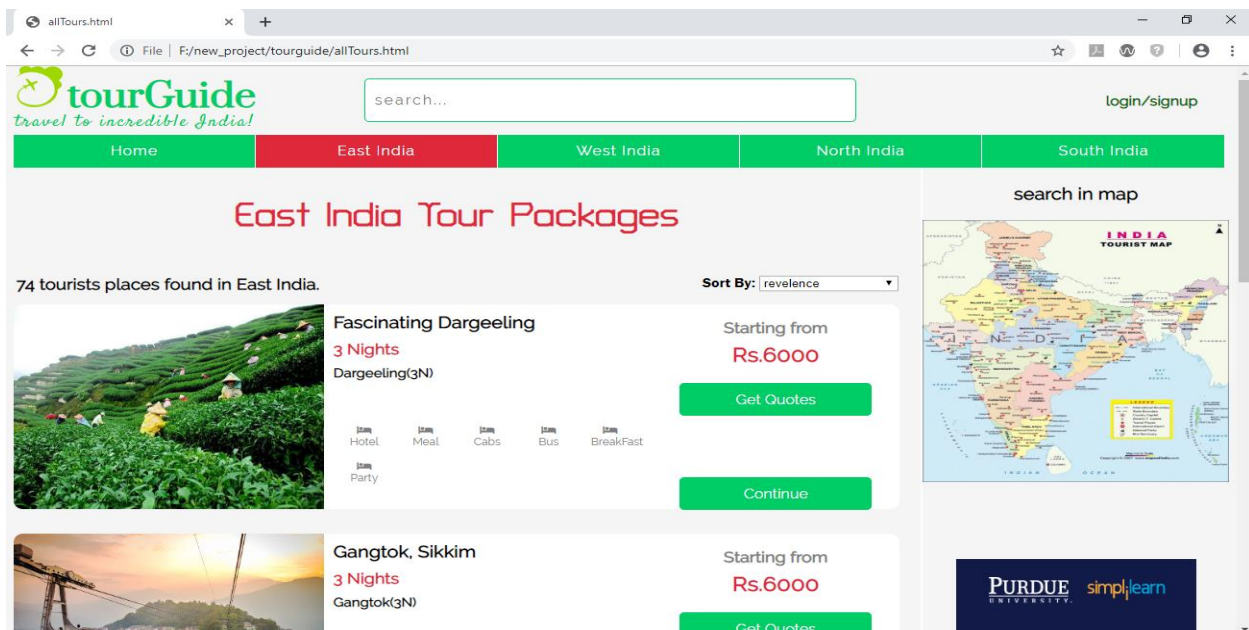

jQuery takes a lot of common tasks that require many lines of JavaScript code to accomplish, and wraps them into methods that you can call with a single line of code.

Dargeeling Himalayan Railway

The Darjeeling Himalayan Railway also referred to as the DHR, and lovingly called the 'Darjeeling Toy Train', is a 2 feet narrow gauge train that runs between New Jalpaiguri and Darjeeling, in West Bengal, India. The construction of this 88-kilometre long railway line took place between 1879 and 1881, and a ride on this train route has been a coveted experience ever since. A journey in the Darjeeling Toy Train has amazing sights with pleasing mountain views and pass by villages and local shops on the way, with children merrily waving at them.

The Darjeeling Himalayan Railway provides significant transport links between various parts of the Darjeeling hills and lower plains and is a piece of sheer engineering inventiveness and vision. How else can a small steam engine pull mini coaches up the steep mountains by overcoming almost unfeasible curves and gradients? This is perhaps why the Darjeeling Toy Train was declared as a UNESCO World Heritage Site on 2 December 1999. Later on, two more railway lines were added, and the site came to be known as the Mountain Railways of India. A ride on such a heritage transport is no doubt a relaxing and charming one but is also prestigious because this train is what once provided the first and most important mountain transportation link in the country

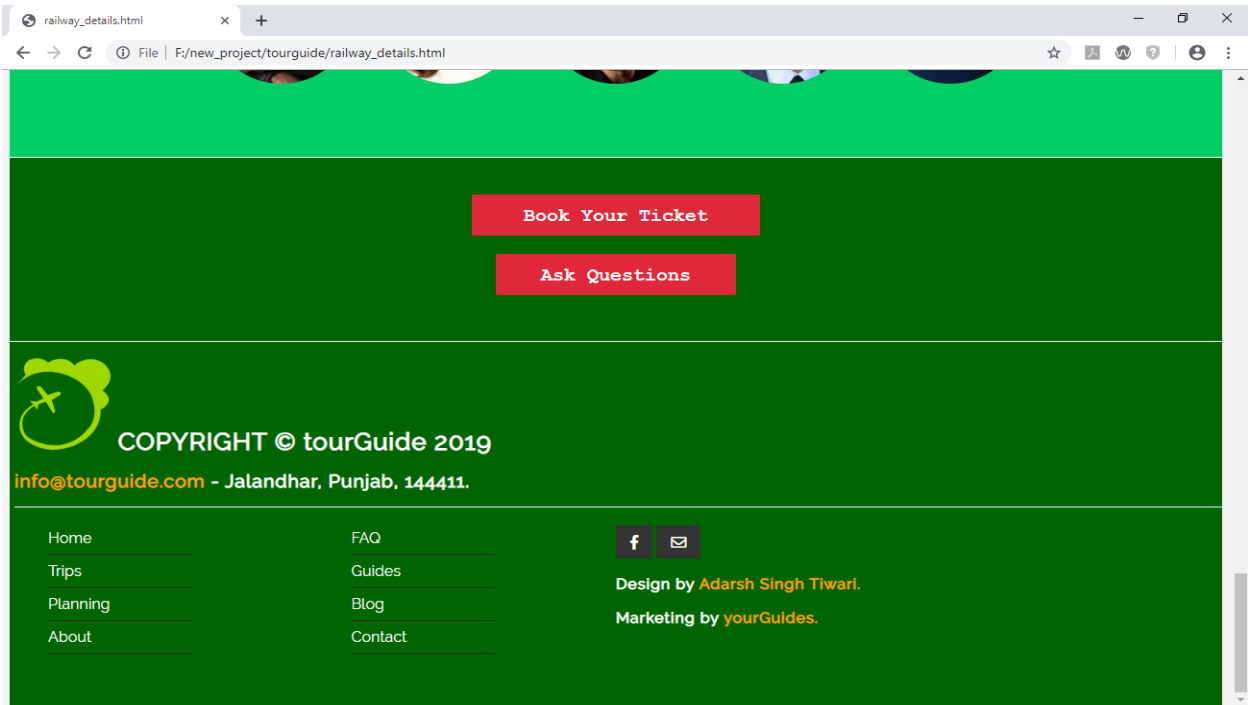

**Date**
November 10, 2019 - November 20, 2019

**Region**
Dargeeling Himalayan Railway

**Trip Cost**
Rs. 5000

Book Ticket:

Home / East Tourism / Dargeeling / Booking
